

Sinclair Broadcasting's plan to air the factually challenged and unbalanced program, "Stolen Honor," just prior to our presidential election is a blatant and despicable attempt to poison our election process. The broadcast is a misuse of our public airwaves. It is clearly not in the public interest to allow a corporation to attempt to exert its influence in this manner.

I respectfully urge you to consider how this type of action affects our democracy. Please stop Sinclair Broadcasting. Take action to preserve the integrity of our election process. Thank you for your consideration.
